2021

January 1, 2021

Safco prides itself as a solution provider that helps furnish spaces for our customers - FAST, COMPLETE and MEANINGFULLY; all at the RIGHT price.

SAFCO®

Safco® is excited to provide you with a variety of workspace solutions that will help make your workday easier, more comfortable and hopefully a little more fun. We're ready with an entire book of Quick Ship options and a robust service offering that will make us easier to do business with than ever before. So, read on and let us tell, and then show you how we can help with all your workspace needs.

Our Locations

It's all about location. And lucky for you we have several of them. Our distribution centers, manufacturing facilities and showrooms create a network built to provide a fast and easy customer experience.

Distribution Centers (DC's)

Our DC's give us the ability to ship our most popular Quick Ship products from a location near you and do it faster than you can say "Wood Adjustable Corrugated Literature Organizer." Need to know exactly where that aforementioned organizer is shipping from? Simply contact our expert Customer Care team for a speedy answer to this and all of your Safco questions – even the ones you didn't know you had. Safco DC's are located in:

Windsor, VA
Riverside, CA

Showrooms

If you would like to see our products in-person and possibly take a swivel chair for a spin, we have three showroom locations filled with a variety of our products. If one of those locations doesn't fit into your travel schedule, simply let us know and we can direct you to one of our Rep Group partners' showrooms. Safco Showrooms are located in:

Milford, IA
Chicago, IL (Merchandise Mart)

Manufacturing Facilities

Safco is jumping for joy at opening our new, state-of-the-art manufacturing facility in Milford, IA. This new plant will allow us to build our legacy products more effectively and enable new product design for the future and beyond! Our Kennesaw, GA facility is a light manufacturing plant where all of our configured and custom upholstery seating is produced and our lockers are built. Safco Manufacturing Facilities are located in:

Milford, IA
Kennesaw, GA

Headquarters

Last, but certainly not least, is our headquarters in New Hope, MN. This is where your orders get placed, calls and emails get answered, products designed, and marketing materials (like this fine copy you're reading and this catalog) are produced. It's the place Safco calls home and where we will be waiting for your call should you need our assistance.

Space Planning Services

Our team of space planning experts provide workspace and storage solution designs that include our entire product offering. Plus, our design renderings showcase how Safco products will fit into your space and bring in color and textures so you can see what your space will look like – making guesswork a thing of the past.

If you have any space planning questions, contact your local Safco Sale rep group.

Installation Services

Now you need someone to install all that great Safco product. We have you covered there as well. Go to our website and select "Find a Certified Installer" to find the best option for all your Safco installation needs. But we don't stop there. Our in-house Installation Manager will help with any questions to ensure your project goes smoothly from the time your product arrives until every last piece of hardware is in place.

48 Hour Quick Ship

Inquiring minds want to know: What exactly is 48 Hour Quick Ship? 48 Hour Quick Ship means that anything in this book will ship from one of our DC's within 48 hours of a complete Purchase Order being sent. Now you may be wondering what a complete Purchase Order means; It simply means it has all the information we need to submit an order such as color and feature choices, quantity, shipping information, etc. are present and accounted for.

- All dimensions shown in this publication are nominal.
- All illustrations and specifications in this publication are based on the latest product information available at date of publication.
- **Prices are subject to change without notice.** All orders are subject to prices in effect at the time of order.
- Safco Limited Lifetime Warranty applies unless otherwise noted.

DEFINITION:

Special Pricing is an additional discount from standard net pricing granted for a specific customer to be used on an identified project in a defined period of time, generally 90 days. Unless previously approved by Safco®, it will be for one purchase order and shipping to one location in a single shipment.

PURPOSE:

Special Pricing is extended to our Dealers at the sole discretion of Safco primarily for the purposes of improving our price position in competitive situations. It is understood that the basis for Special Pricing consideration is information that is gathered from our Dealers and Sales Representatives as well as our historical data. To this extent, it is critical that the information supplied by our Dealers and Sales Representatives is complete, accurate and timely.

GUIDELINES:

Requests will be considered on competitive projects of \$20,000 list and above. Discretion will be employed for high quantities of lower list price items, or with a specific strategic objective in mind. Safco reserves the right to deny or award requests for Special Pricing at any time to any Dealer.

PROCEDURE:

Safco processes Special Pricing requests on a first in, first out basis. Incomplete data will prevent us from processing the request and it will be returned to the Dealer or Sales Representative for completion prior to processing. We strive to provide fast responses to requests, and generally do so within 24 hours. Please allow more time, if possible. To request the Special Pricing Request Form, you may email your request to bids@safcoproducts.com or contact your Sales Representative.

The Special Pricing Request Form may be submitted electronically by emailing to bids@safcoproducts.com, or faxed to us at the number on the form. Electronic submission is preferred whenever possible. In special circumstances such as when traveling, computer breakdown, etc., we will process requests via phone, provided all information is complete, in order to provide you the best service possible.

EXCLUSIONS:

Special Pricing cannot be granted to Dealers solely for the purposes of improving margins in non-competitive circumstances, nor to place orders for stocked products. Once you have received the purchase order from your customer, Special Pricing requests for that project can no longer be processed. We reserve the right to request a copy of the purchase order from your customer for the purposes of confirming integrity of the process.

By requesting Special Pricing, Dealers and Sales Representatives confirm that they intend to, and will make reasonable efforts to sell the Safco products listed in the Special Pricing request to the named customer. If a Dealer or Sales Representative obtains Special Pricing for the purpose of competitively submitting an alternative competitive product to their customer, Special Pricing requests for that Dealer will be suspended indefinitely at Safco's sole discretion.

ORDER SUBMISSION:

In order for Special Pricing to be applied to the appropriate order, the order must reference the Bid Number supplied by Safco at the time of order placement. Failure to include the bid number will prevent Safco order entry from placing your order with the appropriate Special Pricing discount applied; standard discounts will then be used. Credits cannot be issued after Safco order entry has entered your order.

SPIRIT OF COOPERATION:

Safco appreciates the opportunity to partner with our Dealers and Sales Representatives in order to enjoy mutual business. It is our pledge to you to make every interaction as productive, fair, and enjoyable as possible. We sincerely appreciate your business and look forward to the many opportunities to work together in the future.

There are many features to consider when selecting the perfect chair to suit your needs. The following symbols will help you choose the features that are right for you. These symbols are used throughout this pricer to help quickly identify each chair's features. The descriptions of the features shown are meant to be general explanations. The actual functions of the features may vary slightly between chair series.

Seat Height Adjustment

Quick and easy adjustment regulates height of chair relative to the floor.

Back Height Adjustment

Simple lift motion positions lumbar support within a fixed range to alleviate back stress.

Seat Depth Adjustment

Positions chair back relative to seat reproducing pressure on the buttocks and thighs for both taller and shorter users.

Seat Glide Mechanism

Seat cushion travels forward and back, then locks into position.

360° Swivel

Chair rotates a full 360° in either direction for ease of motion. Standard on every executive and task chair.

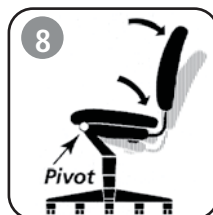

Tilt

Pivot point located directly above center of chair base (White dot indicates pivot point).

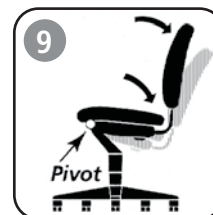

Mid-Range Knee Tilt

Pivot point located slightly ahead of center of chair base (White dot indicates pivot point). Allows user to recline at a slightly more relaxed angle than conventional center tilt.

Knee Tilt

Pivot point located near front edge of chair (White dot indicates pivot point). Allows user to keep feet flat on floor while chair reclines.

Synchronized Knee Tilt

Back reclines at a 2-to-1 ratio to seat angle. Pivot point located near front edge of chair base (White dot indicates pivot point).

Dual-Action Tilt

Back reclines at a 2-to-1 ratio to seat angle. Allows user to recline while keeping seat cushion relatively level to floor (White dot indicates pivot point).

Tilt Tension

Controls rate and ease with which chair reclines to different weight and strength of users.

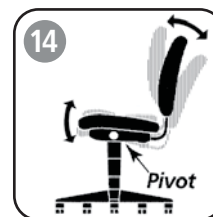

Tilt Lock

Locks tilt function when chair is in upright position.

Posture Lock

Back angle adjusts independently of seat, and can be locked in an infinite number of positions within a fixed range.

Multi-Task Control

Adjusts seat and back angles with a single lever (infinite number of positions within a fixed range).

Asynchronous Control

Three levers modify:

- Angle of back relative to seat
- Tilt (free float or infinite locking within a fixed range)
- Forward tilt (for keyboard intensive applications)

Dual-Clutch Posture Control

Adjusts seat and back angles independently with two levers for infinite number of positions within a fixed range (White dot indicates pivot point).

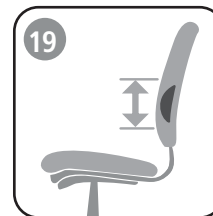

Variable Synchro-Tilt

Back reclines at a 2-to-1 ratio to seat. Chair can tilt freely, or lock in five positions. "Forward angle" control provides an extra 6° in the range of motion.

Inverse Synchro-Tilt

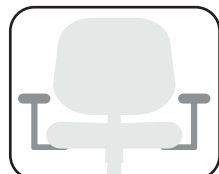

With automatic tension control operation for better circulation. "Zero tilt" seat front helps keep feet on the floor when reclining. Tilt lever controls range of motion.

Integral Lumbar Support

Easily adjust to enhance comfort.

Chair Functions

Safco® Products marketing materials are designed to be used as sales tools for our Dealer network.

1 PNEUMATIC SEAT HEIGHT ADJUSTMENT :

Quick and easy adjustment regulates height of chair relative to the floor.

- Properly adjusted, may provide optimum, balanced support for lower back, buttocks & thighs
- May encourage appropriate blood circulation to legs and feet
- May eliminate pressure points to popliteal area behind the knees

2 BACK HEIGHT ADJUSTMENT :

Simple lift motion positions lumbar support within a limited range of height adjustment to potentially help support a healthy posture and alleviate back stress.

- Properly positioned lumbar support provides support to the lower back, which may help the spine maintain a healthy curve when seated, potentially alleviating stress to the vertebrae

3 SEAT DEPTH ADJUSTMENT :

Positions chair back relative to seat, which may reduce pressure on the buttocks and thighs for both taller and shorter users.

- Properly adjusted, Seat Depth may help users maintain proper back support, while distributing their weight evenly across the seat cushion

4 SEAT GLIDE MECHANISM :

Seat cushion travels forward and back, then locks into position

- Properly adjusted, Seat Glide Mechanism may help users maintain proper back support, while minimizing pressure to the popliteal area behind the knees

5 360° SWIVEL :

Chair rotates a full 360° in either direction for ease of motion. Standard on every task chair.

- May allow user to access a variety of adjacent work areas without standing up from the chair
- The greater the amount of body movement, the more the user may benefit from increased blood flow to the spine and extremities, as well as the redistribution of pressure points during the workday

6 TILT :

Pivot point located directly above center of chair base (dot indicates pivot point).

- Supports a reclined posture
- May allow for a beneficial rocking motion (movement) during the workday
- The greater the amount of body movement, the more the user may benefit from increased circulation and redistribution of pressure points during the workday

7 MID-RANGE KNEE TILT :

Pivot point located slightly ahead of center of chair base (dot indicates pivot point).

May aid user in keeping feet flat on floor while chair reclines.

- The front edge of the seat stays closer to the floor - this may allow the feet to remain relatively flat on the floor while users enjoy a relaxed position for correct posture
- Because gravity works with the user, the chair may have a beneficial rocking motion (movement)
- Body movement may create an increase in circulation and redistribution of pressure points during the workday

8 KNEE TILT :

Pivot point located near front edge of chair (dot indicates pivot point).

- May aid user in keeping feet flat on floor while chair reclines for correct ergonomic posture

9 SYNCHRONIZED KNEE TILT :

Back reclines at a 2-to-1 ratio to seat angle. Virtual pivot point located near front edge of chair seat (dot indicates pivot point).

- The front edge of the seat stays closer to the floor - this may allow the feet to remain relatively flat on the floor while the user enjoys a relaxed position
- The synchro-tilt motion opens the angle between torso and thigh, which may improve circulation to the legs and provide a more comfortable posture
- The greater the amount of body movement, the more the user may benefit from increased circulation and redistribution of pressure points during the workday

DUAL - ACTION SYNCHRO - TILT :

Back reclines at a 2-to-1 ratio to seat angle. Allows user to recline while keeping seat cushion relatively level to floor (dot indicates pivot point).

- Front edge of the seat stays closer to the floor - this allows the feet to remain relatively flat on the floor while the user enjoys a relaxed posture for correct ergonomic posture
- Synchro-tilt motion opens the angle of the torso, which may improve circulation to the legs and provide better spinal alignment
- Potentially increases circulation and redistributes pressure points during the workday from body movement

TILT TENSION :

Controls the rate and ease with which chair reclines to different weights and strengths of users.

- Enjoyable "rocking" sensation
- Body movement may create an increase in circulation and redistribution of pressure points during the workday

TILT LOCK :

Temporarily locks out tilt function when chair is in upright position.

- Allows user to sit in upright posture for keyboard use, while providing the option to recline when desired

POSTURE LOCK :

Back angle adjusts independently of seat, and can be locked in an infinite number of positions within a limited range.

- Supports a range of reclined postures for ergonomic positioning while performing a number of tasks

MULTI - TASK CONTROL TILT (MULTI - TASK TILT CONTROL) :

Adjusts seat and back angles with a single lever (infinite number of positions within a limited range), supporting a range of healthy postures

ASYNCHRONOUS CONTROL :

Three levers modify:

1. Angle of back relative to seat
2. Recline (free float or infinite locking within a fixed range)
3. Forward seat tilt (for keyboard intensive applications)
 - Helps support a wide range of movement and may help spinal alignment and weight distribution.
 - May help alleviate pressure points and encourage better circulation

DUAL - CLUTCH POSTURE CONTROL :

Adjusts seat and back angles independently with two levers for infinite number of positions within a limited range (dot indicates pivot point).

- Accommodates users of differing size in multi-shift environments

VARIABLE SYNCHRO - TILT :

Back reclines at a 2-to-1 ratio to seat. Chair can recline freely, or lock in five positions. Forward angle control provides an extra 6° in range of motion.

INVERSE SYNCHRO - TILT :

With automatic tension control operation for potentially better circulation. Zero front rise control may help keep feet on the floor when reclining. Tilt lever controls range of motion.

- The synchro-tilt motion opens the included angle between torso and thigh, which may improve circulation to the legs and provide a more comfortable posture
- Helps support a wide range of movement and may help spinal alignment and weight distribution
- May alleviate pressure points and encourage circulation from body movement

INTEGRAL LUMBAR SUPPORT :

Easily adjusts to enhance comfort.

- Helps support lower back and the natural curve of the spine

	Letter/Legal Standard Top Tab, 1/3 cut	11 ¹ / ₄ "	12"
	3-Ring Binders	12 ³ / ₄ "	13 ¹ / ₂ "

To determine the height of a unit with media not listed above, first determine the height of the media and add 3/4". Then, round that figure up to the next number divisible by 1 1/2" (because the uprights are slotted on 1 1/2" centers), then multiply that number by the number of tiers desired. Then add 1 1/2" for space that is allotted for the reference shelf. Lastly, add 3/4" for the canopy.

Open-Back Sorters

Open-Back Sorters are typically used where mail is passed through – sorted on one side and collected by the recipient on the other.

- All sorters are 15" deep with 14" deep sorting shelves. Adjust on 1/2"H increments
- Preconfigured models, designated by the letter "C" are available, or build-your-own by specifying empty sorter designated by the letter "E", 12" deep shelving available in the "build-your-own" format only and adding components on pages 242-245
- For smoked Plexiglas, add 10% of list and an "S" suffix to standard Plexiglas door sorter, ie SN4824EPS
- Pricing below is for sorters with and without doors

- For assistance with custom Mailflow Systems configuration contact your local Safco Sales Rep Group.

Open-Back Sorters are typically used where mail is passed through – sorted on one side and collected by the recipient on the other

- All sorters are 15" deep with 14" deep sorting shelves. Adjust on 1/2" H increments
- Preconfigured models, designated by the letter "C" are available, or build-your-own by specifying empty sorter designated by the letter "E" and adding components on pages 242-245
- For smoked Plexiglas, add 10% of list and an "S" suffix to standard Plexiglas door sorter, ie SN4833ELPS
- Elevated sorters offer more workspace, by raising the sorter off the work area
- Pricing below is for sorters with and without doors

- Shelf supports are adjustable in 1" horizontal increments to fit various shelf widths
- Each support is slotted at ½" vertical increments for shelf adjustment
- Shelf support models are based on sorter type, height and shelf depth
- When ordering, remember that the two end shelf supports are included with each sorter

Select MODEL NUMBER (ie., SY2448)	Step 1: Select [✱] CUTOUT (OPTIONAL)	Step 2: Select [■] LAMINATE/EDGE TYPE
	E = Rectangular (Cutout Only) (Add \$30 List)	H3 = HPL Laminate /3mm Edge
	G = Center Grommet (Add \$30 List)	HK = HPL Laminate /Knife Edge HT = HPL Laminate /T-Mold Edge

The final Model Number for Base Product SY2448 with the highlighted selections would be SY2448-E-H3 (or SY2448EH3).

• See page 109 for Cutout and Laminate/Edge options

Note: All non-standard cutouts (other than above) will be reviewed to determine if the cutout does not interfere with the base, degrade table strength or cause imbalance. Contact specials@safcoproducts.com for quote request and drawing signoff will be required before order is processed.
